“ProGRANT Proposal Writing for Research Grants: Practical-oriented Trainings for New Researchers”

Application Period: *November 20th, 2018 - January 20th, 2019*

Seminar 1: *May 1st–5th 2019, Lebanon*

Course Description

The course is part of the DIES (Dialogue on Innovative Higher Education Strategies) programme of the German Academic Exchange Service (DAAD) and the German Rectors' Conference (HRK). The aim of DIES ProGRANT is to train younger researchers and young PhD holders in developing a promising proposal for national or international research funding (every participant will have the opportunity to tailor their application to the funding institution of their choice). Researchers from all disciplines can apply for this course. Each group will consist of 30 participants from the region. DIES ProGRANT is also an effective tool for promoting international research and relationships.

**subject to budget availability*

Learning Approach

Using a blended learning approach, DIES ProGRANT is structured in three sections:
Two on-site seminars (Seminar I and Seminar II) and a trainer guided E-Learning section.

1

SEMINAR 1

Train basic technical skills

2

E-LEARNING

Further develop research
proposal at home institution

3

SEMINAR 2

Complete proposal

Seminar 1 (May 1st–5th 2019, Lebanon)

Seminar I will provide basic knowledge and basic technical skills that are needed to design, write and budget a potentially successful proposal (e.g. to transform an abstract research idea into a proposal) on the basis of lectures, group work and exercises. Attendance and active participation from 9:00 am to 6:00 pm is required.

E-Learning Module Section (May–August 2019)

Primary objective of E-Learning section is to enable the participants to submit a 10 page draft of their proposal. During the E-Learning section the participants will work on their proposal (including creation of a work plan and a budget plan) at their home institution and further develop it under the guidance and online counselling of the trainer team. Eleven online chapters for self-study will be offered. Each chapter includes additional learning material and exercises. This content is specifically designed to help turn theoretical knowledge into practical skills that will help develop a successful proposal. Additionally, personalised online support will be offered to all participants. This includes a virtual classroom for meetings and discussing with coursemates and trainers. Participants should budget three hours per week in order to optimise use of the E-Learning module section (submission by August, 2019).

Seminar 2 (December 2nd– 6th 2019, Lebanon)

During the second seminar, the proposal drafts will be presented, discussed, evaluated and fine-tuned in a participative review process. The objective of this seminar is to engage in a collaborative feedback process between trainers and participants and ultimately develop a final draft. At the end of Seminar II, the research funding proposals should be ready for submission to research funding organisations. Attendance and active participation from 9:00 am to 6:00 pm is required.

Participant Profile

Potential participants are younger researchers and PhD-holders from Lebanon and Jordan.

Selection criteria are that participants:

- Must hold a doctoral degree or have equivalent research experience
- Have an affiliation to an academic institution in the above mentioned countries
- Possess excellent English language skills, both written and spoken
- Be preferably at the beginning or middle stages of their research career

Trainer Profile

The trainer teams consist of ProGRANT trainers and international experts.
