

### **Student led society whose purpose is to engage with sustainability**

The University of Jordan have several student-led societies and clubs focused on various interests and causes, including sustainability. These student-led organizations often aim to raise awareness about environmental issues, promote sustainable practices on campus, and engage in activities that contribute to a more sustainable campus community and beyond

1. Environmental Sustainability Club which is formed and operated by students for students, with a focus on the environment, green issues, conservation and climate issues. <https://www.facebook.com/profile.php?id=61575294927095>
2. IEEE Power & Energy Society University of Jordan Student Chapter. They have several activities regarding electrical power system, grid connected PV systems. For more information, please visit their official page: <https://www.facebook.com/PESUJSC>
3. Association of Energy Engineering (AEE) The Association of Energy Engineers is a non-profit organization dedicated to promoting education in energy and management. It has more than 18,000 members in more than 100 countries. Its mission is to "promote the scientific and educational interests of those working in the energy industry and promote action for sustainable development". The Student Branch at The University of Jordan is a student club affiliated with the Association in the USA. The club was established in 2013 to introduce students to the different types of energy resources and technologies, aiming to spread awareness about renewable energy and its importance. Our student chapter plays an important role on campus by spreading awareness about the importance of renewable energy and its impact on the environment. It offers a full range of media outreach programs in order to bridge the gap between academic and market needs including workshops, field visits, lectures, volunteer work, seminars (live and online), conferences and magazines, books, and certificate programs. you can find more details through the following link: <https://www.facebook.com/aee.ju>
4. School of Science Students at UJ are in the executive committee in The World Academy of Sciences for the advancement of science in developing countries known worldwide by its acronym, TWAS, supports sustainable prosperity through research, education, policy and diplomacy, especially in TYAN Educational & Research Program for Sustainable Development and TYAN International Thematic Workshop (TITO) concerns about SDGs
5. Professor Dr. Hanan Saadeh established a student group (Lambda Group) under the umbrella of the American Physical Society (APS), dedicated to raising public awareness of physics. The American Physical Society highlighted this group and its community service efforts.
