

Interreg

Co-funded by the European Union

NEXT MED

NBS4MED

NBS4MED helps Mediterranean cities tackle **climate risks**, such as heatwaves, floods, and droughts by utilising **nature-based solutions**, such as green spaces and water-friendly designs. It addresses challenges regarding outdated policies, limited funding, and the lack of stakeholder collaboration.

Total budget
2.365.887€

EU contribution
2.105.640€ (89%)

Project duration
Oct 2025–Oct 2028

LEAD PARTNER

Hellenic Republic
Region of Peloponnese
