

CAPACITY BUILDING

PRIORITIES

- Green Deal (stimulate green jobs, climate neutral society, environmental-climate-sustainability awareness, green and circular economy)
- Digital transformation (development and uptake of digital skills, digital pedagogy, connectivity solutions, digitalisation, artificial intelligence)
- Integration of migrants (promote access to education and recognition of degrees and credentials)
- Governance, peace, security and human development (promotion of rule of law, human and fundamental rights, equality, democracy and good governance, and fight against corruption)
- Sustainable growth and jobs (support employability, tackle mismatch between education and labour market demands)

Capacity Building in the field of higher education

The Capacity Building in Higher Education (CBHE) action supports international cooperation projects based on multilateral partnerships between organisations active in the field of higher education. The activities and outcomes of CBHE projects must be geared to benefit the eligible third countries not associated to the Programme, their higher education institutions and systems. In line with the Sustainable Development Goals (SDGs) and the Paris Agreement, this action supports the relevance, quality, modernisation and responsiveness of higher education in third countries not associated to the Programme in addressing socio-economic recovery, growth and prosperity and reacting to recent trends, in particular economic globalisation but also the recent decline in human development, fragility, and rising social, economic and environmental inequalities.
