NUFFIC MENA SCHOLARSHIP PROGRAM

short courses for professionals in Netherland

ABOUT THE SCHOLARSHIP

Aim

The overall aim of the MENA Scholarship Program is contributing to capacity building within organisations by enabling employees to take part in short courses in the Netherlands. It also aims at strengthening the relations between the participating countries and The Netherlands by building a sustainable alumni network. While the scholarship is awarded to individuals, all candidates must be nominated by their employer to be able to participate. The need for training has to be demonstrated in the context of the organisation the applicant is employed by.

Target group

The scholarships are awarded in a competitive selection to highly motivated professionals 'change makers' who are in a position to introduce the newly-acquired skills and knowledge into their employing organisation. At least 50% of all scholarships per country are allocated to female applicants.
