

LONG-TERM ASSISTANCE AND SERVICES FOR  
RESEARCH (LASER) PARTNER UNIVERSITY-LED  
SOLUTIONS ENGINE (PULSE)

**RESEARCH GRANT CALL...**

APPLY FOR RESEARCH GRANT BEFORE 31/12/2018

**The University of Jordan (UJ)**

is pleased to announce that the US Agency for International Development (USAID) has awarded the **LASER** project to the consortium led by Purdue University including Catholic Relief Services, Indiana University, Makerere University, and the University of Notre Dame to implement this five-year program.

## REGISTER AND PARTICIPATE

---

The LASER PULSE consortium convenes and catalyses a global network of Universities, government agencies, non-governmental organisations, and the private sector for research-driven, practical solutions to critical development challenges in low and middle-income countries.

Since UJ is a member of this global LASER PULSE network, researchers at UJ who register with LASER PULSE will be able to apply for research grants in response to Requests for Applications (RFA's) issued by LASER PULSE.

Each grant proposal is expected to have a research partner from a US University within the network, and a development translation partner (NGO/private sector/local government). LASER PULSE RFA's are expected to **begin in 2019**.

Researchers at UJ who wishes to participate in development research in LMIC across USAID technical sectors) needs to register with LASER PULSE using the online registration form.
